## I see hope in the morning light

I see hope in the morning light (2X)

Another long night caresses 'round me  
Shows no pity, knows no shame  
To share its lifetime of endless moments  
Till I can touch the light again  
Everything changes, everything 'round us  
Everything matters after all  
Let something move me and I will follow  
Not walking blind but walking tall

Where does it say that we must hide  
Inside this cold divide  
Where nothing good can grow, oh  
When has a life been black and white  
Where it's only wrong or right  
I never felt so low, oh

CHORUS (1st part) :  
Deliver me from my sad story  
I see hope in the morning light  
Come to me in love and glory  
I see hope in the morning light

CHORUS (2nd part) :  
Bringing peace, love and understanding  
I see hope in the morning light  
Emotional and undemanding  
I see hope in the morning light

This heat that's growing from deep inside me  
Lighted by your burning flame  
But through the darkness when sleep surrounds me  
I'll wake up crying out your name  
There are no reasons, no lame excuses  
To lock up freedom and desire  
With love the power you came right through me  
And turned this ember to a fire

CHORUS (1st)

Where does it say that we must hide  
Inside this cold divide  
Where nothing good can grow, oh  
Where has a life been black and white  
Where it's only wrong or right  
I never felt so low, oh

### **Cold, Cold Heart**

Come stand beside me  
Come gather 'round me  
Come stand beside me  
Come gather 'round me  
And heat this cold, cold heart

When I was just a boy  
The voice of an angel came to me  
It said "Your future is there inside your cold, cold heart"

But I was just a boy  
And a boy sees what he wants to see  
And something to share inside this cold, cold heart

Somebody should have told me  
When you're born to this world  
Your life starts slipping away

Come stand beside me  
Come gather 'round me  
Come stand beside me  
Come gather 'round me  
And heat this cold, cold heart

With the love inside me  
With arms around me  
With the love inside me  
With arms around me  
We'll heat this cold, cold heart

When I became a man  
The voice of the devil said to me, it said  
"Forever you'll live inside your cold, cold heart"

But I'm a better man  
Where's a man who wants to be free  
To have someone to care about this cold, cold heart

Somebody should have loved me  
Should have taken me on  
Instead of taking away

Come stand beside me  
Come gather 'round me  
Come stand beside me  
Come gather 'round me  
And heat this cold, cold heart

With the love inside me  
With arms around me  
With the love inside me  
With arms around me  
We'll heat this cold, cold heart

Come stand beside me  
Come gather 'round me  
Come stand beside me  
Come gather 'round me  
And heat this cold, cold heart

With the love inside me  
With arms around me  
With the love inside me  
With arms around me  
We'll heat this cold, cold heart

Come stand beside me  
Come gather 'round me  
Come stand beside me  
Come gather 'round me  
And heat this cold, cold heart

With the love inside me  
With arms around me  
With the love inside me  
With arms around me  
We'll heat this cold, cold heart

### **Sweet 'n' sensitive Thing**

So strange how it changes through the years  
How sweet the memories and souvenirs  
In a moment all the pieces just blew away  
Lost forever

All the daydreams lay shattered by your side  
All you cling to is empty love and pride  
All your comfort is all the tears you cried

That echo 'round this lonely heart

CHORUS :

I built my world around you  
Dreamed of a life beside you  
I laid my heart upon the ground  
My sweet and sensitive thing

What price the luxuries I own  
That breaks a high, a heart, a home  
In a lifetime it's the only thing I achieved  
Lost forever

All the sweet dreams lay shattered by my side  
All I cling to is empty love and pride  
All the comfort is all the tears I've cried  
That echo 'round this lonely heart

CHORUS (2X)

All the daydreams ...

CHORUS

I laid a deep foundation  
Displayed a new elation  
I bared my soul to all the world  
My sweet and sensitive thing

### **Pure Love**

I saw a rainbow sparkle in your eyes  
I bet my money on a life in paradise  
Became a member of a union they called wonderland

CHORUS :

Pure love, pure ecstasy  
Takes a life from a low to an all time high

I felt the force of the feelings suck me down  
And threw away all the doubts I'd kept around  
And took a share of the life they sold as wonderland

CHORUS

A tender word and a secret touch of skin  
To brush away all the scars that lay within  
To buy a ticket on a journey back to wonderland

CHORUS

I lay my head on a pure and fragile heart  
To feel the surge of a new and hopeful start  
Oh, take me back to wonderland

CHORUS

Pure love, pure fantasy  
Takes a life from a low to an all time high

### **Let it go?**

Once I saw a promised land  
Wrapped in many shades of green

But I sat and watched the world go by  
 Confused by all the things I've seen  
 Should I stand up say what's on my mind

Point my finger at the wrong I find  
 Let it linger till another time or let it go  
 I've seen forests turn to fields of sand  
 To satisfy a rich man's greed

Now the tears that fall upon this land  
 Won't help to grow a nation's needs  
 Should I shout out from the highest tower  
 Should I take it to the highest power  
 Show the plague that turns a whole world sour, or let it go

I seeked comfort, in a sea of fools  
 And wrapped their lies around for protections  
 But if lies were any answer at all  
 Were just adding to this world infection  
 Can I turn and smile and kiss it away  
 Leave it lying for another day

Should I fall down on my knees and pray, or let it go  
 There's a passion that destroys all the caring  
 And walks across the flowers of affection  
 Breaks them down into the soil we are sharing  
 And leaves us with this life rejection

Am I strong enough to stand my ground  
 Lift my head and show the strength I've found  
 Try to keep from hell or heaven bound  
 Or let it go, Don't let it go

### **Rising**

Stood on a mountain high as the sky  
 Watch the whole world crack apart  
 Feeding me, feeding me, feeding me life, oh  
 See as the dazzling light hits my eyes  
 And it fires up my heart  
 Giving me, giving me, giving me life, oh oh

CHORUS :

Rising up in the East is our day  
 Pour your light in my way, oh oh  
 Shining out in the East is our day  
 Pour your power in my way, oh oh oh

Filled with the strongest emotions of all  
 As our fingertips entwine  
 Feeding me, feeding me, feeding me life, oh  
 Taste the embrace of the highest of highs  
 As your soul rejoices mine  
 Giving me, giving me, giving me life, oh oh

CHORUS (4X)

**Light in your Eyes**

I never noticed before  
 Sometimes I'd find that I'd tried to be blind to it all  
 But something has changed  
 Something quite wonderful  
 I see light in your eyes tonight

Could I hope anymore  
 'Cos never a word of affection was heard, none at all  
 But something has changed  
 Something quite wonderful  
 I see light in your eyes tonight

But oh, it's hard to find and hard to keep inside  
 Harder still to bend my foolish pride  
 Oh, for the way to say  
 The things I should say

This innocent love  
 Never so much as the tenderest touch, none at all  
 But some things must change  
 For something so wonderful  
 I see light in your eyes tonight  
 Light in your eyes tonight  
 Light in your eyes tonight

This innocent love  
 Never so much as the tenderest touch, none at all  
 But some things must change  
 For something so wonderful  
 I see light in your eyes tonight  
 Light in your eyes tonight  
 Light in your eyes tonight

**Little One**

CHORUS :  
 Bring me the heat that excites me  
 My only one, oh oh my little one  
 Blessed with the gifts that delight me  
 My only one, oh oh my little one

Making the waves that surround me  
 Lost in a sea of constant change  
 Caught in an ocean that drowns me  
 They come and go  
 These waves have carried me away  
 No explanation meets  
 The way you make me feel  
 I fall each time you come

CHORUS

Some days I felt so hollow  
 I never knew feelings ran so deep  
 Those days were hard to follow  
 They'd come and go  
 Like waves they'd carried me away  
 The memories I hold  
 Sad monuments to love  
 Tumble as you come

CHORUS

Now I seem to understand  
My helplessness at your command  
No one else could make me feel so alive  
Now I wait to bend and yield  
To the sensual world that you've revealed  
Nothing else could make me feel so alive  
My little one

The memories I hold  
Sad monuments to love  
Tumble as you come

CHORUS (3X)

### **Hands around my Heart**

Blow your wild winds above  
Breathe out your braeth of love  
Try to save this simple man from falling

Send your wild winds to me  
To save and set me free  
Try to hear the tired words I'm calling

I need delight to feed my soul tonight  
Come cradle this man torn apart  
I'm waiting for your hands around my heart

Blow, blow down from where you stand  
Across this loveless land  
Send a ray of hope to light my fire

Over desert, over sea  
Let the wind blow through to me  
Through to me, to lift my spirits higher

I need delight to feed my soul tonight  
Come cradle this man torn apart  
I'm waiting for your hands around my heart

Blow your wild winds above  
Breathe out your breath of love  
Try to save this simple man from falling

Send your wild winds to me  
To save and set me free  
Try to hear the tired words I'm calling

I need delight to feed my soul tonight  
Come cradle this man torn apart

I seek delight to save my soul tonight  
To comfort a man torn apart  
I'm ready for your hands around my heart

### **Waiting Days**

CHORUS (1) :  
Oh no, oh oh no, don't deny me  
Oh, don't deny me  
These waiting days  
Oh, these waiting days

Everyone is all alone

To face the ghosts of love  
Innocence becomes the stone  
That shatters futures from above

CHORUS (1)

Don't dare accuse, don't dare conspire  
To drown me in your lies  
You feed the flames that fuel the fire  
That spreads across our sheltered lives

CHORUS (1)

CHORUS (2) :  
Some moments only come, then they go  
Into the winds of change  
We watch them blow  
You can't take them in your hands  
But you can hold them in your heart  
Through the waiting days

What price we pay for a part we played  
In a state of ignorance  
A tender moment spoiled and greyed  
Convicting me with no defence

CHORUS (1)

CHORUS (2)

## **Tumbling Down**

Hands touching hands  
Through a curtain that no longer stands  
Sister and brother  
Embracing each other  
It's tumbling down

Light on both sides  
Is changing political tides  
It's turning from clashes  
To keepsakes and ashes  
It's tumbling down

CHORUS :  
Watch as we waltz in the sand  
In this no-man's land  
See our world turn around  
Watch it come tumbling down

And through it all  
The watchtowers and garrisons fall  
Machine guns and fire  
The tanks and barbed wire  
Come tumbling down

And in the end  
Watch as we spend  
These moments together  
While notions forever  
Come tumbling down

## CHORUS

Machine guns and fire  
This concrete messiah  
Comes tumbling down

**Come the Day**

I feel the shadows on me now  
With so much more to say  
I see the strange arrival  
From a thousand miles away

If I stopped right where I stand  
And believed the lines in my hand  
I would open up my fist  
And take the things I'd missed

Come the day  
I will be there when the hammer starts to fall  
Come the day  
I will be there with my reasons for it all  
Struck by sound across my face  
Loud enough that I can taste  
Knock the choices from my head  
Hear the voices which just said

Come the day, oh

I weave around the dangers  
The finest threads unwind  
This net between my fingers  
Covers all I've left behind

If I stopped right where I stand  
And believed the lines on my hand  
I would open up my heart  
And take the hardest part

Come the day  
I will be there when the hammer starts to fall  
Come the day  
I will be there with my reasons for it all  
Struck by sound across my face  
Loud enough that I can taste  
Knock the choices from my head  
Hear the voices which just said

Come the day, oh

When the hammer starts to fall  
I will be there when you call

Come the day  
I will be there when the hammer starts to fall  
Come the day  
I will be there with my reasons for it all  
Struck by sound across my face  
Loud enough that I can taste  
Knock the choices from my head  
Hear the voices which just said

Come the day, oh

Knock the choices from my head  
Hear the voices which just said

Come the day, oh

Come the day

Come the day
